Aston Martin DB2, DB2/4 & DB3 In Detail -Nick Walker 2005-03-28 Before World War II Aston Martin had made some stunning sports cars but had undergone numerous financial crises. The company was bought by David Brown in 1947, and in 1950 he launched the all-new DB2 with a brilliant engine designed by W.O. Bentley. The car was a sleek, beautiful and fast two-seater closed coupe of the highest pedigree and led to the highly successful DB3 and DB3S racers, which were entered by the works at Le Mans, Sebring and elsewhere, driven by star drivers from Stirling Moss to Roy Salvadori. All these Aston Martins are examined and analyzed in detail here, with specially commissioned color photography of seven outstanding examples of this rare, expensive and exotic breed of sporting motor car. Models covered: DB1 1948-50, DB2 1950-53, DB2/4 1953-55, DB2/4 MkII 1955-57, DB2/4 MkIII 1957-59, plus Competition models DB3 1951-53 and DB3S 1953-56

Slot Car Racing in the Digital Age -Robert Schleicher Robert Schleicher wrote the book on slot car racing—literally. In the three short years since Schleicher's Slot Car Racing: Tips, Tricks & Track Plans was published, the hobby has been virtually transformed by new products and technologies. This new volume, a perfect complement to its predecessor, brings readers and racers up to date, offering a concise, comprehensive overview of slot car racing's developments, along with expert, practical guidance for putting this information to good use. A primer on the latest digital and analog developments for both 1/32 and HO scales, Schleicher's book delivers the lowdown on building cars from individual components on ready-to-race chassis, as well as popular tune-up tips to get even more speed and better handling out of today's cars. Schleicher also provides track tests of 70 cars and a slot-car shootout featuring 23 more vehicles. Finally, Schleicher includes nearly 50 track plans: 14 table-top-size plans for Scalextric, Classic, Carrera, Sport, SCX, and Ninco brand track; 14 plans modeled on real circuits like Watkins Glen, Monaco, Spa-Francorchamps, Sears Point, and the Bahrain and Shanghai F1 courses; and 17 4x8-foot HO scale plans. Illustrated throughout with color photography and track plan line art, this is the book that no serious slot car racer can afford to be without.

Aston Martin DB -Andrew Noakes 2019-09-03 Read the full story of Great Britain's best-loved sports car manufacturer with Aston Martin DB, an exquisitely produced, photo-loaded, history by Aston Martin expert, Andrew Noakes. The name David Brown is synonymous with the glory days of Aston Martin, when a tiny British sports car company was rescued from near-extinction and turned into a marque that could compete with Ferrari—and win. Stylish design, lavish illustration from the Aston Martin Heritage Trust and meticulously researched text come together in this large-format, 224-page book to create a superb celebration of the 70th anniversary of DB Aston Martins in 2017. There's a wealth of detail on the Aston Martin DB road and race cars, both from the David Brown era of 1947-1972 and the modern DB era from 1993 onwards, together high quality images and specification tables for all the key models. Aston Martin DB 70 Years is a fitting celebration of one of the world's most enduring sports cars. The fast, beautiful sports cars that Aston Martin built under Brown's ownership won the Le Mans 24-hour race and the World Sports Car Championship, and provided James Bond with his most famous transport: the ejector-seat equipped DB5 that won acclaim in Goldfinger. Though the DB era ended when Brown sold the company in 1972, its influence continued to be felt. James Bond's most recent car, the specially-made DB10, and Aston Martin has just launched its most complete car ever, the DB11. 'DB' means as much to Aston Martin now as ever.

Northeast American Sports Car Races 1950-1959 -Terry O'Neil 2010-10-15 This book focuses on the different aspects that contributed to the development of Northeast American sports car racing during the 1950s. The evolution from amateur drivers racing on public roads in 1950, to both professional and amateur drivers racing at private, purpose-built tracks in 1959, demanded huge leaps of faith, trust and understanding. The transition was neither easy nor uneventful for drivers, clubs or track owners, and the tragedy, politics and intrigue that came to characterise the period are covered here in fascinating detail.

Car -DK 2011-05-02 From the first motor cars and classic cars to today's supercars and Formula 1, this is the ultimate book about the history of the car. Discusses the importance of light in determining the overall feel and atmosphere of the image, and offers ideas for composition with figures, backgrounds and weather conditions to set the scene. A wide range of examples illustrate atmosphere, emotion, composition and action. This book will inspire motoring artists and buyers alike, and is beautifully illustrated with 169 colour photographs.

Aston Martin -Richard Loveys 2015-04-10 Aston Martin is now more than a century old - and what a century it has been. Since its birth in London on the eve of the First World War, the company has experienced the highs of racing triumph - most famously in the 1959 Le Mans 24-hour race - and the lows of bankruptcy, yet throughout it all has been in the first rank of British marques. Published in association with the Aston Martin Heritage Trust and written by enthusiast Richard Loveys, Aston Martin is a fully illustrated history of the company that has created some of the the world's best loved and most widely respected cars, including James Bond's iconic DB5. It covers the cars themselves, the personalities and talents who have shaped Aston Martin from owners to engineers, the drivers who have shared with the company in racing glory, and the centenary celebrations of 2013.

Cutting Edge Conversations -EJ 'Ted' Cutting 2019-06-13 EJ 'Ted' Cutting was not only Aston Martin's most successful Chief Race Car Design Engineer, but was also an inovator with influential force on the worldwide automotive industry. Originating from a limited edition hardback version, this eBook was produced in celebration of the 60th anniversary of Aston Martin winning the World Sports Car Championship for Britain with the all-conquering DBR1 designed, engineered and created by Ted himself. Rather than a traditional biography of his life, Ted wanted his book to be rather less scripted and informal; it was therefore initially adapted from a number of recorded conversations between himself and Aston Martin Heritage Trust members Stuart Bailey and Brian Joscelyne - the title being an obvious choice considering this! In addition to the in-depth telling of a legendary period in British motorsport by a man at the centre of it all, the book also sees Ted clarify a number of details which have in the past been incorrectly reported. Unusually it also contains all his published documents and access to a 90 minute video of his unique lecture on 'Racing Astons' to further endorse his story. Although the original hardback edition of this book was produced only in a limited run, Ted's wish was to make the complete book available to a much wider audience, now possible through the internet; as an engineer always working at the cutting edge of technology, he would appreciate the benefits of information sharing in the digital age. As well as being of interest to fans of Aston Martin and of motorsports in general, the book is a compelling read for any student of automotive design and engineering; after all, progress is about standing on the shoulders of giants - and in the field of race car design, few individuals ever reach the colossal heights achieved by Ted Cutting.

Allard -Alan Allard 2020-10-26 The remarkable story of everything Sydney Herbert Allard achieved in motor sport and motor car manufacture is framed in an up-to-date commentary co-authored by his own son. This is a tribute unswayed by legend, but based on the facts and achievements of his eponymous company. With contributions from the Allard Owners' Club and Allard Register, this book contains painstaking research of Allard history from 1929 to the present day, including previously unpublished material. Just under 2,000 Allards were built, and approximately 510 are believed to remain on the road or known to be under -restoration. More await discovery - even as this book was being written, one of Sydney's long-lost 1930s 'Allard Specials' has been found after years being forgotten. Other topics covered in this remarkable book include: car-by-car engineering and design details; unseen ideas and projects; the history of the Allard marque in motor sport and the Allard story in the USA. Finally, it features the Allard Owner's Club, Allard Register, members and their cars.

Shelby and AC Cobra -Brian Laban 2015-08-31 In the new edition of this classic text, Brian Laban brings the story of the AC Cobra up to date. In the early 1960s, a flamboyant Texan, Carroll Shelby, dreamed of a special kind of sports car, a marriage of European style with lusty, affordable American V8 power. He took his dream forward and he persuaded British sports car specialist AC Cars to build his car, and US industry giant the Ford Motor Co to fund it. Its name also came to him in a dream - Cobra. The original production of the Cobra lasted just five years and encompassed barely a thousand cars built within the original framework. But it was only the beginning of a story that is still very much alive, encompassing 'continuations', spin-offs, and a massive worldwide replica industry. Shelby and AC Cobra details the man behind the cars, the story of their development and engineering, racing pedigree and owning and driving these powerful, iconic cars today. Fully illustrated with 250 archive colour photographs.

Go Like Hell -A. J. Baime 2010-06-17 The epic story also told in the film FORD V. FERRARI: By the early 1960s, the Ford Motor Company, built to bring automobile transportation to the masses, was falling behind. Young Henry Ford II, who had taken the reins of his grandfather's company with little business experience to speak of, knew he had to do something to shake things up. Baby boomers were taking to the road in droves, looking for speed not safety, style not comfort. Meanwhile, Enzo Ferrari, whose cars epitomized style, lorded it over the European racing scene. He crafted beautiful sports cars, "science fiction on wheels," but was also called "the Assasin" because so many drivers perished while racing them.Go Like Hell tells the remarkable story of how Henry Ford II, with the help of a young visionary named Lee Iacocca and a former racing champion turned engineer, Carroll Shelby, concocted a scheme to reinvent the Ford company. They would enter the high-stakes world of European car racing, where an adventurous few threw safety and sanity to the wind. They would design, build, and race a car that could beat Ferrari at his own game at the most prestigious and brutal race in the world, something no American car had ever done. Go Like Hell transports readers to a risk-filled, glorious time in this brilliant portrait of a rivalry between two industrialists, the cars they built, and the "pilots" who would drive them to victory, or doom.
